x.xxxx" = +/- 0.0005" (0.0127 mm)

5" GUTTER PROFILE

This product is protected by a number of patents.

PROFILE

SCREWS

- This hanger is installed with self-sealing screws made of zinc #10 -1½" (38 mm) with ¼" (6.4 mm) hexagon heads and integrated rubber gaskets.
- Reinforces the gutter so it will stay in place year after year without needing to be removed or replaced.
- Reduces the risk of water seeping into the fascia.
